Bundle dimensions	-
Current quantity	6 pcs
Bag usage - current	76%
Max quantity	6 pcs
Bag usage - max quantity	76%
Remaining capacity	0 pcs
Calculation note	Existing Single Bag calculation; selected Three.js view captured from the result.

Bag visualization

Decision-support representation only. Bag dimensions are interpreted as flat L x W dimensions in millimetres, with the opening on the width side. Physical validation is recommended for critical packaging decisions. Final selection may also depend on sealing, protection, handling, branding, transport and quality requirements.
